BUCKINGHAM ANCHOR STRAP

Wear protector for wrapping around sharp objects increases the life of the sling.

Personal anchor for human support with a choking configuration.

Great for use when working on a chipper box of a bucket truck to remove snow. Simply choke the sling to the boom and hook in with your bucket harness and lanyard. Sling slides easily along the boom and you have access to the full chipper box and headache rack.

Buckingham
Anchor Strap
3904J12-4

Designed to be used as a personal anchor for human support. This Buck anchor strap with a wear guard has a choking configuration and is small, lightweight, and flexible making it easy to handle and install in the field.

Features:

- Great for use when working on a chipper box of a bucket truck to remove snow. Select states have DOT laws that require the removal of snow from vehicles before operation. Simply choke the sling to the boom of the truck and then hook in with your bucket harness and lanyard. Sling slides easily along the boom and you have access to the full chipper box and headache rack.
- Steel rings allow any type of connector to be hooked to it.
- Comes with a wear protector for wrapping around sharp objects and increases the life of the sling.
- Meets OSHA requirements for being rated to 5,000 lbs.
